

# FRASER & PARSLEY

## How to tie the perfect bow!

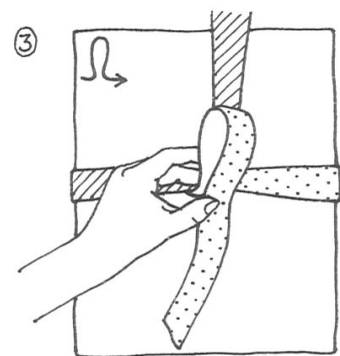

① Cross the ribbons over the front of your package, left to right, then turn the left tail under to tie.

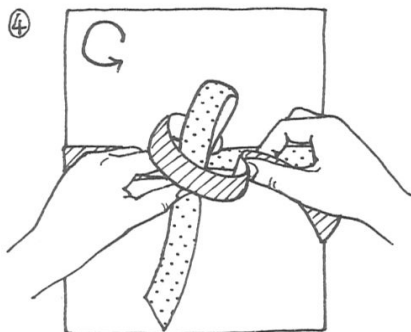

② Pull tight vertically, so the tie is centred. The top tail should be slightly longer than the bottom tail.

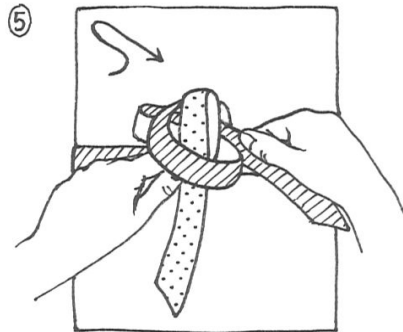

*\*\* Attach your gift tag to the bottom tail at this point!*

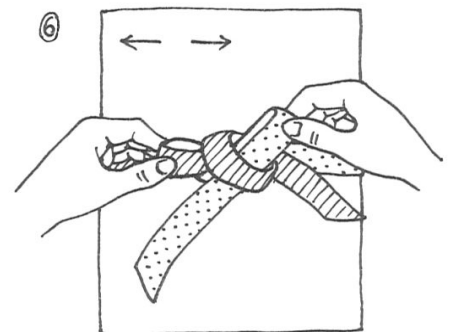

③ Put your left middle finger on the tie to secure it, then fold the bottom tail into a loop, and hold it firm to the centre tie with your thumb.

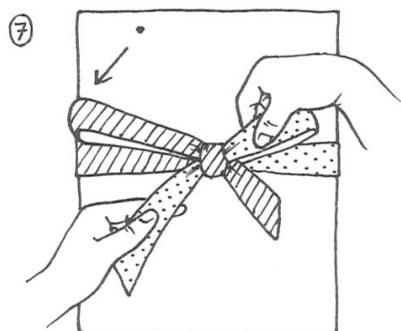

④ Keeping the bottom loop in place, take the top tail and pull it around the loop anti-clockwise.

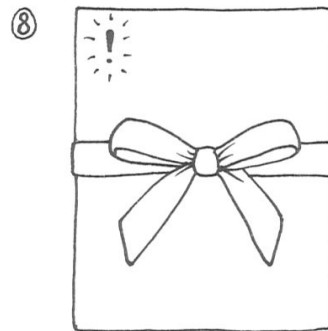

⑤ Use your right thumb to make a loop, and push it through behind the bottom tail loop.

⑥ Take a loop in each hand and pull firmly to tighten.

⑦ To shorten the bow loops, hold the front of the loop firmly, and pull the tail. Trim ribbon tails with very sharp fabric scissors.

⑧ Well Done!  
You have tied a beautiful bow, and...
